

Using the Stanford Discovery Tool™

1 *Download*

Search for "Discovery Tool Our Voice" in the App Store (on iPhones) or Google Play (on Androids).

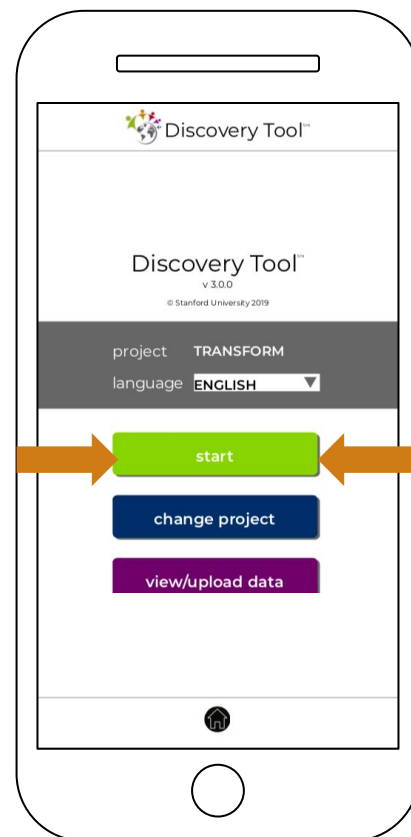

If you already have the Discovery Tool, make sure to update to the latest version.

2 *Get Started*

Remember to enable location services, camera, and microphone.

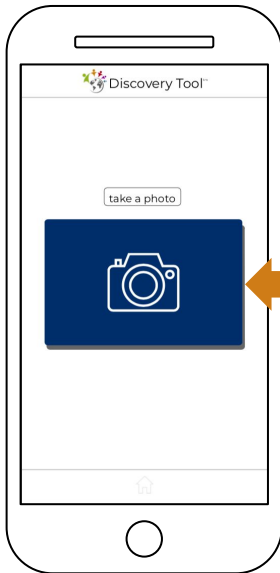

Sign in by entering project ID and password

Tap "start"

3

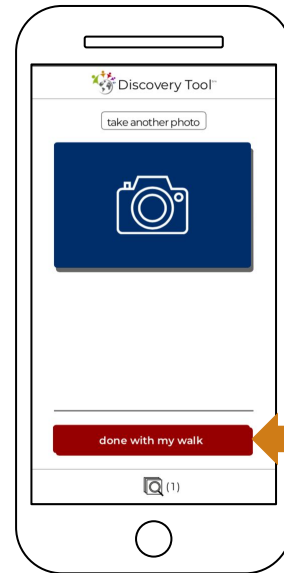

Collect Data

Tap to take photos

Record/type thoughts, select "good" or "bad," then tap "save"

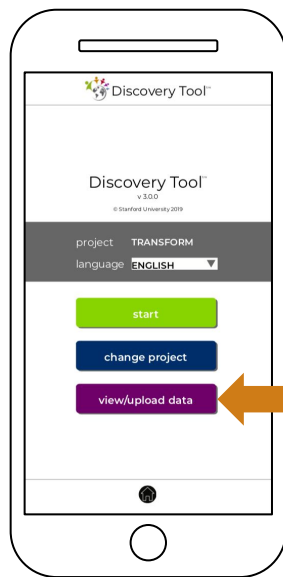

When finished, tap "Done with my walk"

Note: This step is crucial in order to save the data you have collected.

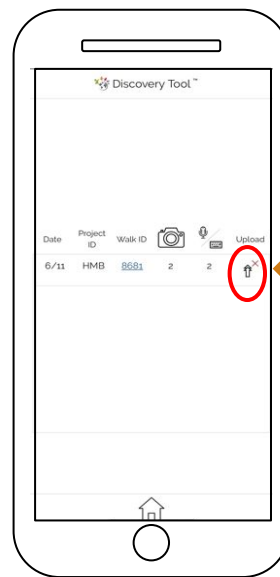

4

Upload Data

You must be on WiFi to upload data.

Tap "view/upload data"

Tap the upwards arrow under "Upload" and wait for status bar to reach 100%
